DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 11/19/09 has been entered.

Allowable Subject Matter

2. Claims 1-22, 24-27, and 29-32 are allowed.
3. The following is an examiner's statement of reasons for allowance: the prior art of record fails to teach or fairly suggest either alone or in combination thereof:
- regarding claim 1, a method performed by a payment card processor, comprising:
- sending a first notification message to a first device associated with a payment card holder of a payment card and a second notification message to a second device associated with a second party other than the payment card holder when a purchase amount of an attempted transaction exceeds a maximum purchase threshold, wherein the second party is affiliated with a business associated with the payment card; and

Art Unit: 2876

processing the attempted transaction without sending the first notification message and the second notification message when the purchase amount of the attempted transaction does not exceed the maximum purchase threshold;

wherein the first notification message and the second notification message each include a plurality of options to decline authorization of the attempted transaction;

regarding claim 10, a system comprising:

a payment card transaction notification and authorization system that uses a telecommunication network configured to:

send a notification message from a payment card processor to a device associated with a payment card holder of an attempted transaction using a payment card when a purchase amount of the attempted transaction exceeds a maximum purchase threshold;

provide a first option for the payment card holder to decline authorization of the attempted transaction upon receiving the notification message for a non-fraudulent transaction;

provide a second option for the payment card holder to decline authorization of the attempted transaction upon receiving the notification message for a fraudulent transaction;

decline authorization and send a message to a merchant involved in the attempted transaction to return the payment card to an individual making the attempted transaction in response to receiving information indicating an input on the device selecting the first option;

decline authorization and send a message to the merchant involved in the attempted transaction to withhold the payment card from the individual making the attempted transaction in response to receiving information indicating the input on the device selecting the second option;
and

Art Unit: 2876

process the attempted transaction without sending the notification message to the device when the attempted transaction does not exceed the maximum purchase threshold; and

regarding claim 22, a method comprising:

sending a notification message from a payment card processor to a device associated with a payment card holder of an attempted transaction using a payment card when a purchase amount of the attempted transaction exceeds a maximum purchase threshold, the notification message indicating a transaction amount, a merchant name, and at least part of a number of the payment card, and processing the attempted transaction without sending the notification message to the device when the attempted transaction does not exceed the maximum purchase threshold;

providing an option for the payment card holder to authorize the transaction;

providing multiple options for the payment card holder to decline authorization of the attempted transaction, the multiple options comprising a first option for the payment card holder to decline authorization of an undesirable but non-fraudulent transaction, and a second option for the payment card holder to decline authorization of a fraudulent transaction;

receiving a selection of one of the options made by the payment card holder;

when the first option is selected, providing a message to a merchant involved in the attempted transaction to decline the attempted transaction and to return the payment card to an individual attempting the transaction; and

when the second option is selected, locking an account associated with the payment card and providing a second message to the merchant involved in the attempted transaction to decline the attempted transaction and to withhold the payment card from the individual attempting the transaction.

Art Unit: 2876

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
